

STATEMENT BY HAL THOMAS FOR SCHOOL BOARD SIERRA VISTA DISTRICT 68

I'm standing for election for the board in order to assist an already great district to meet the challenges that will be forthcoming in the future. The District and Students will face challenges that most people cannot imagine. My background and careers in agriculture, high technology (engineering), business owner, teaching at high school and University levels, serving on school boards and many local boards and committees provides me with a unique ability to recognize and recommend solutions to problems. Schools of the future will be in a constant mode of change to meet the needs of our students, I believe I am well qualified to be part of the team to face those needs.

Hal Thomas, EdD
